

Cordially invites you to attend a dinner event featuring:

Michaela G. Austel, Dr. Med. Vet., DACVD
North Georgia Veterinary Specialist

Presenting

**The pruritic patient - today's challenges and opportunities in
an era of new treatment options**

Pruritic patients can have a somewhat long and sometimes confusing differential list which can pose a challenge at times. The goal of this continuing education event is to highlight the necessary systematic steps to achieve a correct diagnosis for the pruritic patient. Possible diagnostic pitfalls are discussed along with strategies to avoid them. Several new and promising interventions for pruritic patients have become available over the past years. Their specific advantages and disadvantages will be discussed in detail.
